The Great Remedy for Gonorrhœa

GLEET Stricture and all analagous complaints, is DR DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union, during the last 40 years His only reason for introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks

Dr D most solemnly affirms that during his practice of forty years this Paste has never, in one single instance failed of effecting a cure in a few days without any change of diet or hindrance from business He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after taking the Paste for a few days the angry symptoms disappeared, and the patients were discharged entirely cured

If the unfortunate instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste we should not see so many emancipated bodies and sallow countenances as we do at the present time

☞ In case this Paste should fail to effect a cure in the shortest possible time ten times the price paid for it will be given the purchasers on returning the empty boxes

For sale only by the original inventor and sole proprietor Dr PETER G DOUGLASS at his Office No 55 Union street Boston at $5 per box where he can be confidently consulted on every disease incident to the human frame and the patient rely upon the most beneficial course of treatment that can possibly be adopted

Whig and Courier.

John S. Sayward—Editor

WEDNESDAY, DECEMBER 6, 1848.

☞We fear the Democrat will be the death of us ' all for love It promises its support for any office we desire, and insists upon it all the while that it means to be just and magnanimous towards those whose political sentiments are not in accordance with its own

We have certainly become an inveterate doubter, or the editor of the Democrat is a changed man

We would not pretend to any uncommon skill in seeing through a mill stone but it does not seem at all hard to discover the drift of the Democrat in attempting to fan up little fires of suspicion and prejudice among the Whigs and to get them into a muss generally any how

It represents us as settled that a good word was said by the Democrat for Gov Kent, when the fact is that we only questioned the entire purity of the motive for that good word

What is thus attempted with us is without effect since Gov Kent is our neighbor and friend, and our esteem and respect for his commanding talents ability and moral worth are too well known to need to be told and of too long standing to occasion surprise or excite suspicion But we are not given to man worship and in the high and honorable and just estimate of a neighbor and friend we can see, we trust the merits of others and are sufficiently free from sectional prejudices and interests to acknowledge such merits Out of this fact the Democrat shakes its delicate fan and gently applies its sweet soft breath to light up some little spark which it hopes may be hidden in some bundle of combustibles

It is all [illegible] labor lost The time has gone by when the Whig press or the Whig sentiment are to be shaped and controled by the press and the leaders of the locofoco party The Whigs have proved victorious by confidence in themselves in each other and in the intelligence and virtue of the people They have placed at the head of the government a [illegible] patriotic self-possessed and venerable man [illegible] they mean to give him a cordial [illegible] support in his administration and [illegible] the excellency of Whig measures [illegible] the welfare and prosperity [illegible] the government to the support of mere party In order to do this the Whigs understand very well that they must rely upon themselves and have confidence in each other and yield their personal and private interests and wishes when required to do so for the general good

With this general view of the subject there is a necessity for looking with cautious suspicion upon the efforts of the loco leaders to disturb and distract the Whigs however honied may be the manner of their doing it

☞ The Editor of the Democrat entirely mistakes in supposing that the two articles from which he quotes were not both written by the hand of the editor

We find no difficulty in harmonizing them, and ed they state distinctly the views we now entertain upon the subjects treated of The election of Zachary Taylor and Millard Fillmore for the presidency and the vice presidency, and a House of Representatives with a large Whig majority certainly indicates very significantly that the people are in favor of a change in the administration of the government and that those who now give [illegible] and influence in the administration should [illegible] give place to men of other views who will [illegible] duce the measures and policy advocated by the Whigs While this is clearly seen to be the will of the people, Gen Taylor as President of the United States will [illegible] the government for mere party nor [illegible] the Executive power merely for the benefit of partizans The government will be administered upon Whig principles for the good of the country, and not for party All this may seem very strange and very contradictory [illegible] Democrat, but to us it [illegible]

The [illegible] of the matter to the loco press and [illegible] is this, that the people having [illegible] decided against their measures and the representatives of those measures which they put before the country, it becomes them to submit with a good grace to the voice of the people to be a little modest in their pretensions and not cling too closely to the administration they oppose and mean to overthrow Otherwise they may be suspected of intending office and pay, above the political principles, or, worse yet, prove to be the pretended hypocritical supporters of the administration which they mean to betray at any moment they can do so with safety to themselves

Godey's Lady's Book January, 1849

Right beautiful is this opening number of the new year of this favorite magazine Here we find a rich display of the fine arts in embellishments which are attractive to all and reflect high credit upon the country Indeed this magazine was the Pioneer in this department and it has ably maintained its position as a leader in the work The variety and beauty of its embellishments are well maintained by the excellence of its articles and the artistic skill displayed in its typography But words, however fitly chosen cannot convey to the reader a just and accurate idea of this elegant book before us and it is not worth while for us to puzzle our brains in the attempt, and we therefore give it our full commendation and advise our friends to purchase it The sweet bouquet of colored flowers and the model cottages are worth the price of the number Three dollars will purchase this book for every month in the year and a weekly newspaper besides

Hon Truman Smith.

This distinguished gentleman has been so much the object of abuse and attack from the Locofoco newspapers, and especially from the President's print at Washington, that we feel it our duty in this season of rejoicing to tender him our heartfelt thanks in behalf of the Whigs of Pennsylvania, for the valuable service which he rendered in the recent election The extent and character of his exertions can only be appreciated by those who have a just estimate of the labor anxiety and responsibility of conducting a political campaign at the metropolis, but to these it is only necessary to say, that to his zeal and industry the country is in a large degree indebted for the valuable information which was distributed through the canvass, and for the prompt and decisive exposure of the frauds with which Locofocoism attempted to mislead the public

From the outset—long before the adjournment of Congress—he entered upon the serious labors of the campaign, and at every sacrifice of personal convenience and private affairs he continued to devote himself unremittingly to the obligations which he had so cheerfully assumed The consciousness of having discharged his duty faithfully to his country is the highest reward which the patriot desires, and this Mr Smith has every reason to enjoy for none has been more faithful, honest, or untiring, but this consciousness does not carry with it the attestation of public gratitude

It is our pleasure and pride to offer in part this tribute of regard, and we feel assured that we but echo the sentiment of every Whig heart, in thus publicly offering our acknowledgments for the able and efficient aid which Truman Smith gave to the Republican cause in the recent contest It is not in our habit to single out individuals for this sort of approbation but the services and the cheerful zeal with which they have been rendered, in the present instance, justify the exception Moved by no considerations but those of patriotism, he embarked with the zeal and enthusiasm of one determined to succeed His efforts have been crowned with a glorious triumph, and the result is one which he has eminently contributed to produce —[Phila North Am

Closing of the New York Canals.

The Canal Commissioners have issued a Card by which it will be seen that they have determined to draw off the water from the canals on the 9th of December even though they should not be previously closed by the weather The reason assigned for this determination is that it is necessary to fix upon this definite period in order to enable contractors to be prepared for the prosecution of their work —[Albany Atlas

Office Seeking.

Exaggerations and enormous questions, are put forth in the Loco Foco press, alleding that the Whigs by thousands are scrambling for office under Gen Taylor, and are already wrangling about them! Located as we are in the heart of Government patronage, and with some opportunity for knowing we can briefly say, we have never seen so little of office seeking, and have never been so little troubled by it, True, Whigs expect to have their full share of the honors and emoluments of the Government and to be relieved from the cruel ban of proscription, under which they had been put for twenty years,—but there is no such rage for office, as the Loco Fo co press indulge

We are right glad to see, and to be able to say that it is so No man who has a fair business, should ever give it up, or run the danger of losing it and take office,— for nothing is more uncertain than the tenure of office, and no life is more dependent —no future is so clouded, or beams with so little hope The salary a man gets is all he has to hope for But little can be laid up, and when old age comes, he is unfit for the place, and must be turned off for others

We cannot too sincerely advise all Whigs to stick to their business and not to seek for office, or take office when it will lose them their business The sacrifice of a trade, or of an occupation, and of independence, scarcely any salary can pay for —but what is worse, the trade, or the occupation, cannot be easily resumed, when the office is lost To cling to one's business, and to strive to thrive by it, is man's first duty to himself and to his family Often, too often, men are ruined in credit, in character, and in all their future prospects, by a passion for office, and nine times out of ten, he who devotes himself to his own business, comes out the best at the end of life —[N Y Express

EDITH MAURICE.

BY T S ARTHUR.

How many beautiful, lovely-minded women do we meet in society, who are united, by marriage contract, with men whose tastes habits and characters, cannot but be in every way uncongenial And on the other hand how often do we see the finest specimens of men, unequally joined to women who seem to have no true appreciation of what is really excellent in morals or social life

The reason for such inequality is very apparent to all who observe with any intelligence — The affinities which govern among those who enter life's dazzling arena, are, in most cases external instead of internal Accomplishment, personal appearance, and family connections, are more considered than qualities of the heart — Beauty, wit, station and wealth are the standards of value, while real merit is not thought of or fondly believed to exist as a natural correspondent of the external attractions so pleasant to behold In this false and superficial mode of estimating character, lies the bane of domestic happiness Deceived by the merest externals young persons come together and enter into the holiest relation of life, to discover, alas! in a few years, that there exists no congeniality of taste— no mutual appreciation of what is excellent and desirable in life, and worse than all, no mutual affection based upon clearly seen qualities of the mind Unhappiness always follows this sad discovery, and were it not for the love of children, which has come in to save them, hundreds and thousands who, in the eyes of the world appear to live happily together, would be driven angrily asunder

Aunt Esther, whose own experience in life confirmed by much observation, made the evil here indicated as clear as noonday to her perceptions saw the error of her beautiful niece Edith, in courting rather than shunning observation while in society

'You wrong yourself dear,' she would often say, 'by this over carefulness about external appearances You attract those who see but little below the surface, while the really excellent and truly intelligent avoid instead of seeking your society

'Would you have me careless about my appearance aunt?' Edith would sometimes say, in reply to those suggestions,

'By no means' Aunt Esther would reply! 'A just regard to what is appropriate in external marks the woman of true taste and right feelings but you go beyond this

'Then I violate the principles of taste in dressing

'I will not say that you do very broadly — Most persons would affirm that you display a fine taste and in using the word display would express my objection I think the woman too [illegible] good taste when she so arrays herself as to attract attention to her dress

'As I do?'

'Yes, Edith, as you do If you disguise from yourself the fact that you both love and seek admiration from personal appearance you do not do so from others—at least not from me

Aunt Esther did not wrong her neice by this judgment It was Edith's weakness to love admiration, and what we love we naturally seek Without actually infringing the laws of taste and harmony, she yet managed to dress in a style that always attracted the eye, and set off her really fine person in the most imposing manner The consequence was, that she had many admirers, some of whom were elegant and attractive young men But none of these were drawn to the side of Edith from a love of her moral beauty It was the beauty of her person, the fascination of her manners, and the sparkle of her wit, that made her an object of admiration

Edith had a friend whom she dearly loved, a sweet, gentle, true-hearted girl, named Mary Graham Those who were dazzled by an imposing appearance, passed her with indifference, but the few who could perceive the violet's odor by the way side, as they moved along through life sought her company, and loved in the best a loving woman, more of beauty and delight than she ever gives as a creature of show and admiration

Different as they were, in many respects, Edith and Mary were alike in the possession of deep affections Both loved what was pure and good, but while one had an instinctive power of looking beneath the glittering surface, the other was easily deceived by appearances While one shrunk from observation the other courted attention The consequence was, that Edith had hosts of admirers, while only the discriminating few lingered near the retiring Mary One was admired for what she appeared to be, the other was loved for what she was

Two young men, entirely dissimilar in character, yet thrown together as friends, by circumstances, met one evening when one of them, whose name was Ashton, said to the other

'Erskine! I met a glorious creature last night, a perfect Hebe

'Ah! Who is she?

'Her name is Edith Maurice

'She is a showy girl, certainly '

'Showy She is a magnificent woman Erskine And so you've met her?

A few times

Were you not enchanted?

No Your glorious things never turn my brain

'You are an anchorite

Far from it I delight in all things lovely,— and, above all, in the presence of a lovely woman

'A lovelier woman than Edith Maurice, I have not seen for twelve-month

'Though I have

'You have, Indeed!

'I think so She has a friend, named Mary Graham, whom I think far more interesting '

'Pray introduce me

I will, when opportunity offers

Not long afterwards an introduction took place and Ashton spent a short time in the company of Mary Graham

'That's your lovely woman,' said the young man to his friend, in a tone of contempt, when they next met

'To me she is exceedingly interesting,' returned Erskine '

'Interesting! A duller piece of human ware it has not been my fortune to meet these dozen years I should say she has no soul

'There you are mistaken She is all soul!

'All soul! If you want to see a woman all soul, look at Edith Maurice '

'All body, you mean,' replied Erskine, smiling;

'What do you mean by that?' enquired Ashton

'All external It is rather the beauty of person than the beauty of soul that you see in Edith; but in Mary every tone and motion but expresses some modification of the true beauty that lies within Edith bursts upon you like a meteor; but Mary comes here as Hesperus, scarcely seen at first, but shining with a purer and brighter light the more you gaze upon her, '

'Not a meteor my dear fellow,' replied Ashton 'I repudiate the comparison Edith is another Sirius, flashing on the eyes with an ever varying yet strong and beautiful light. As for your evening stars, with their unimpassioned way of shining—their steady, planet-like, orderly fashion of sending forth their rays—I never had any fancy for them '

'Every one to his taste' said Erskine. 'As for me, I like true beauty—the beauty of the mind and heart '

'Oh, as for that,' returned Ashton, lightly, 'let people go so far hearts who understand such matters. I don't profess to know much about them But I can appreciate, ay, love a magnificent woman like Edith Maurice. You can have Mary Graham, and welcome; I will never cross your path.'

The True Philosopher.

The character of the true philosopher is to hope all things not impossible and to believe all things not unreasonable He who has seen obscurities which appeared impenetrable in physical and mathematical science suddenly dispelled and the most barren and unpromising fields of inquiry converted as if by inspiration into rich and inexhaustible springs of knowledge and power, on a simple change the point of view or by merely bringing to bear on them some principle which it never occurred before to try will surely be the very last to acquiesce in any dispiriting prospects of either the present or future destinies of mankind, while on the other hand, the boundless views of intellectual, as well as material relations, which open on him on all hands in the course of these pursuits, the knowledge of the trivial place he occupies in the scale of creation, and the sense continually pressed upon his own weakness and incapacity to suspend or modify the slightest movement of the vast machinery he sees in action around him, must effectually convince him that humility of pretension no less than confidence of hope is what best becomes his character —[Herschel

Plank Roads.

"A plank road is being constructed from Camillus to Marcellus at a cost of $1,500 per mile — Plank three inches thick are used, and the road is graded eight feet each side of the planking These new roads are so popular here that by and by every farmer will have a plank road from his house to his barn They are making the farmers rich — The extensive use of plank roads has raised the price of lumber "

The Kindly Germans

'Gellert's Fables, says a memoir of that writer appeared between the year 1740—1750—a time of literary drought in Germany They were received everywhere with enthusiasm and soon became the book of the nation By their means Herr Gellert made his way into every heart in every family of all classes and conditions They gained for him not cold admiration merely, but glowing cordial love The substantial proofs which he received of this affection were not few, and the nature of the gifts frequently bespoke the naivete of the givers For instance, one severe winter day a countryman stopped before his house with a huge wagon drawn by four stout horses It was loaded with well seasoned firewood ready split for use — On being asked its destination he replied that it was for Gellert— For I shall feel more comfortable' said he 'when I am certain that the poor poet who amuses us well while we rest in the warm chimney of an evening has the means of warming himself well also '''

An Ancient Dahlia.

In the travels of Lord Lindsay the noble author states that in the course of his wandering amid the pyramids of that patriarchal and interesting land (Egypt) he stumbled on a mummy proved by its hieroglyphics to be at least 2000 years of age In examining the mummy after it was unwrapped he found in one of its closed hands a tuberous or bulbous root He was interested in the question how long vegetable life could last and he therefore took the tuberous root from the mummy's hand planted it in a sunny soil allowed the rains and dews of heaven to descend upon it—and in the course of a few weeks to his astonishment and joy the root burst forth and bloomed into a beauteous dahlia

HEAR THE WORDS OF AN OLD SOLDIER

Philadelphia August 16, 1848.

To the public —When a soldier in the American camp in 1778 I with many others, (owing to great exposure) had a violent attack of disease of the lungs, by which I was disabled from duty for a long time Since that period until recently, I have never been free from cough and a difficulty of breathing Year after year I have expectorated over a gill a day often much more, and some times mixed with blood For months together night after night, I have had to sit or be bolstered up to obtain my breath. The weakness and debility caused by such constant expectorations frequently brought me to a state bordering on death I have had skilful physicians to attend me, and every thing done that was likely to give me relief without any beneficial effect. Last winter I had another very severe attack of inflammation of the Lungs which I fully expected would be the last. I then considered my case as past the aid of medicine, when I was advised to use Jayne's Expectorant I did so with a strong hope that as it had cured many of my acquaintances of various diseases of the lungs it might at least mitigate my sufferings Need I say how gratified I feel? IT HAS EFFECTUALLY CURED ME As soon as I commenced taking it I found it reached my case, and I began to breathe with more freedom. My expectoration became easy, and my cough entirely left me I now feel as well as ever I did in my life, and am better than I have been for the last SIXTY YEARS Now after suffering so long and finding at last such signal relief from Dr Jayne's Expectorant I feel anxious to inform my fellow citizens where relief may be had

Ayer's Cherry Pectoral,

For the cure of Coughs, Colds, Asthma, Hoarseness, Bronchitis, Hooping Cough, Croup and Consumption.

WHENEVER this remedy is at hand, no disease of the lungs or throat need be feared, for it gives immediate relief, and if persevered in effects a permanent cure. The Formula by which it is prepared has been laid before the medical Colleges, and a large part of the medical Profession of this country, and they have agreed in according it unlimited praise as a most skilful Preparation, and the most certain remedy known for diseases of the Lungs and Throat.

DR. BARTLETT, OF CONCORD, MASS., uses it constantly in his extensive practice, and particularly recommends it in cases of *Hooping Cough*, he having found it more certain to cure that troublesome disease than any other medicine.

DR. BREWSTER, OF WINDHAM CO., CONN., sends us the following testimony.

Dr. J. C. Ayer—*Dear Sir*—I enclose you a certificate from Mrs. Catherine R. Cady, a highly respectable lady of this village, wife of Mr. Seth Cady, Dep'y Sheriff, Windham Co., Conn. The cure in her case was very prompt, and has attracted general attention.

NEW AND Important Discovery

GRAY HAIR can be restored to its original color, whether Auburn, Brown or Black, Sandy, Fagen or Red Hair can be matched with any darker shade, surpassing, in beauty even the most natural looks, retaining the gloss and softness of the original Hair, by using O. M. Ballard's

Permanent Liquid Hair Dye,

Which preparation, which is completely different from all other preparations of Hair Dye now before the public. *It is free from all injurious properties* which can be tested by taking a lock of the finest and most delicate Hair instant, and color it with the Dye, which will *not impair its gloss or texture* in the slightest degree, which is the best evidence that can be given that it is *not injurious*. On the contrary, it *improves* the texture of the Hair, promotes its growth, and prevents it from falling out, and unlike other preparations, (after the Hair is colored and dry) will not crock, fade or wash out.

In short, from its peculiar delicacy, softness, and easy application it is worthy the attention of all who may wish to improve the color of the Hair, as it will make any shade, from a white to a jet black. It is now used to an unprecedented extent, by persons who have prematurely turned gray, and others whose Hair is of an undesirable color, which they restore or exchange for a beautiful Auburn Brown or Black, without any additional preparation or the slightest trouble.

DR. CUMMINGS'S Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these, others of vegetable origin are combined, designed to render them more active, and consequently more immediately effective.

The Dock, or rather a species of it now ranks as a medicinal plant, second to none of the vegetable kingdom. With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound, he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound, and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract most to be relied on and least liable to decomposition is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time without heat or any other accelerating agent. None is permitted to be used in the compound, that has not been obtained by this process, and that has been less than 1 year in preparation.

The Compound is recommended for Scrofulas, Erysipelas, Ulcerous affections, Eruptions, and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution, among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates, with which the proprietor became familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and a preventative.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.

D. MOSMAN & CO.

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This Extract is put up in Quart Bottles—it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES

ever known; it not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood*, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the last five years, more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 5,000 children during the two past seasons.

10,000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.*

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, faint sensations, premature decay and decline, hastening toward that fatal disease Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system, gives activity to the limbs and strength to the muscular system, in a most extraordinary degree.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse expectoration, Pain in the side, &c., have been and can be cured.

SPITTING BLOOD.

New York, April 28, 1847.

Dr. Townsend—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.

Your obedient servant,

WM. RUSSELL, 65 Catharine st.

RHEUMATISM.

This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues.

James Cummings, Esq., one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter:

Blackwell's Island, Sept. 14, 1847.

Dr. Townsend—Dear Sir: I have suffered terribly for nine years with the Rheumatism; considerable of the time I could not eat, sleep or walk. I had the most distressing pains, and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good. I am so much better—indeed, I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours respectfully,

JAMES CUMMINGS.

FITS! FITS! FITS!

Dr. Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable farmer in Westchester County.

Fordham, August 13, 1847.

Dr. Townsend—Dear Sir: I have a little girl, seven years of age, who has been several years afflicted with Fits; we tried almost every thing for her, but without success; at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise. She is fast becoming rugged and hearty, for which we feel grateful. Yours, respectfully,

JOHN BUTLER, Jr.

FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness. It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy off-spring.

TO MOTHERS AND MARRIED LADIES.

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "*The turn of life*," should neglect to take it, as it is a certain preventive for any of the numerous and horrid diseases to which females are subject at this time of life. *This period may be delayed for several years by using this medicine.* Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject.

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most effectual medicine for purifying the system and relieving the sufferings attendant upon child birth ever discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon child birth—in Costiveness, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement.

BEAUTY AND HEALTH.

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe. This beauty is the offspring of nature—not of powder or soap. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily.

NOTICE TO THE LADIES.

Those that imitate Dr. Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females*, &c., &c., and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c., are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr. Townsend—Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very severely with bad sores, have taken only four bottles, it took them away, for which I feel myself under great obligation. Yours respectfully

ISAAC W. CRAIN, 106 Wooster st.

OPINIONS OF PHYSICIANS.

Dr. Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.

Owing to the great success and immense sale of Dr. Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements, they are only worthless imitations, and should be avoided.

DR. CHRISTIE'S GALVANIC BELTS, BRACELETS, NECKLACES, AND MAGNETIC FLUID.

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the Age.*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

is used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause, namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines *increase the disease*, for they weaken the vital energies of the already prostrated system; while under the strengthening, life giving, vitalizing influence of Galvanism as applied by this beautiful and wonderful discovery the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by *outward application*, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

60,000 Persons

including all ages classes and conditions among which were a large number of ladies who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken which, by their action on the nerves and muscles of the stomach afford *temporary* relief but which leave the patient in a lower state, and with injured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack and simply tie the Belt around the body using the Magnetic Fluid, as directed. In a short period the insensible perspiration will act on the positive element of the Belt thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

Certificates and Testimonials

From the most Respectable Sources,

Could be given sufficient to fill every column in this paper! We make a few selections. The first is an

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation:—

SIDNEY, New Jersey, July 12, 1848.

DR. A. H. CHRISTIE—Dear Sir: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about *twenty years* I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. My physicians were skilful and excellent men, but here their prescriptions failed. About *fourteen* years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me indescribable anguish. In the severer paroxysms, the skill of my physicians sometimes afforded me great relief, but this relief was only temporary. Farther in the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. *My nervous system was now thoroughly prostrated*, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System. My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors, in which my soul has ever found the highest of her joys.

But reasoning from effect to cause, I concluded that the *Nervous System* must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopœia there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June 1846. TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD GONE, IN EIGHT DAYS I WAS ENABLED TO RESUME MY PASTORAL LABORS, NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS; AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract. My Dyspepsia has *never returned*; the Rheumatism once in a while visits me, but not severely, and is easily arrested, and is manifestly being driven from its hold upon my system, and my Bronchial affection is *entirely cured*. Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections. They have tried them, WITH HAPPY RESULTS, I BELIEVE IN EVERY CASE.

I am, dear sir very respectfully yours,

ROBERT W. LANDIS.

☞ Many hundred Certificates from all parts of the country of equally extraordinary character could be given.

☞ No trouble or inconvenience attends the use of *DR. CHRISTIE'S GALVANIC ARTICLES*, and they may be worn by the most feeble and delicate with perfect ease and safety. In many cases the sensation attending their use is *highly pleasant and agreeable*. They can be sent to any part of the country.
